

Minutes of the Eighth Client Meeting

Group 14B

Wednesday 15th May 2024

Client: Cruz Izu

Chair: Lanxi Zhang

Secretary: Zhangchi Pan

Participants: Zhige Zhang, Jingqi Wang

1 Time and Place

The eighth client meeting for the MCI Group Project was held in IW 4.21 at 2:30 Pm on 15th May 2024.

2 Agenda

- Demonstrate the database setup and explain how user input information is stored and retrieved.
- Showcase the API integration and discuss how it facilitates communication between the front-end and back-end.
- Present the implemented reply and comment functionality, highlighting the user experience and any relevant technical details.
- Gather feedback from the client on the implemented features, discussing their effectiveness, usability, and any potential improvements.
- Discuss the remaining tasks and prioritize them based on the client's feedback and the project timeline.

3 Discussion

1) Testing plan

Gain feedback regarding to the structure, grammar, table as well as detailed content. Especially regarding to the risks part and the appendix part.

2) Admin page

1. The submit code page should not be displayed in the admin page.
2. Add editing functionality for tags in admin mode, including adding and deleting tags.
3. Modify the page navigation in admin mode; for example, the home page button should return to the admin mode home page.
4. When a customer's code example is rejected, provide three options (1. Doesn't have subjective

error 2. Too complex code example 3. Has already been discussed before) and categorize the code example accordingly.

3) Code example page:

1. The "4 comments" is not connected to the backend.

4) Further Requirements of project (Extension)

1. For customers whose submitted code examples are rejected, provide them with a notification and feedback.
2. After customer log in, display their avatar and ID.

4 Next Steps:

1. Modify the testing plan.
2. Improve the admin mode.
3. Fix the bug on the code example page.

5 Next Meeting:

The 9th Client Meeting will be hold on Monday 3.10 pm 20th of May
