

Minutes of the Fifth Client Meeting

Group 14B

Wednesday 10th April 2024

Client: Cruz Izu

Chair: Zhige Zhang

Secretary: Lanxi Zhang

Participants: Zhangchi Pan, Shiwen Cao

1 Time and Place

The fifth client meeting for the MCI Group Project was held in IW 4.21 at 3:30pm on Wednesday 10th April 2024.

2 Agenda

- 1) Present the completed code for milestone 1 to the client.
- 2) Seeking advice and feedback from the client.

3 Discussion

1) Home Page

optimize sentence: Share your sub-optimal code samples and join the discussion to turn them into powerful teaching moments.

2) Submission Page

- Provide a detailed and comprehensive sentence below the title to enhance understanding.
- Correct the spelling of 'bachelor' to ensure accuracy.
- In the 'type' dropdown menu, eliminate the option 'code repository'.
- Before submission, verify that all fields(including code, dropdown menus, description) are filled.
- The 'goto discussion forum' button should redirect users to the discussion dashboard. Similarly, the 'leave the site' button should lead to a sentence 'thanks for your contribution' or 'your code have been save and is waiting moderation'.
- Extension: when user input is very close to an already existing tag, add a colour to indicate

that it already exists.

3) Discussion Page - Code Samples list

- The sidebar needs to implement the filter function.

4) Discussion Page - Discussion Forum

- Each issue sample presented must correspond to the associated code.
- 'tags' should be the word which user input in the submission page, not just 'tag'.
- Align tags such as 'python', 'master-cs1', and 'assignment' on the same line as the title 'duplicate error' for better readability.
- Omit the display of participants' avatars.
- General comments: 1. Introduce a 'reply' button for each comment. Whether to display the number of replies is optional. 2. Incorporate options for users to express approval or disapproval of comments.
- Complete the development of the 'Add New Issue' feature, enabling users to create a new issue with the click of a button.
- Drawing inspiration from the 'myuni' discussion module, consider two approaches for the collapsible reply interface: 1. Redirecting to a new page. 2. Expanding additional conversations within the current page.

4 Next Steps:

- 1) The team will work on implementing the suggested changes and optimizations to the website based on the client's feedback.
- 2) align with milestone and continue writing dicussion page.

5 Next Meeting:

The 6th Client Meeting is scheduled at 15:10 on Monday, April 22.
