

The first MCI Group14B project client meeting will be held at IW Room420 1pm on 12th March 2024

Agenda

Client: Cruz Izu

Chair: Jingqi Wang

Secretary: Shiwen Cao

Participants: Zhangchi Pan, Lanxi Zhang, Zhige Zhang

1 Meeting Objective

The primary aim of this meeting is to align the client and project team regarding the project scope and key deliverables.

2 Project Scope Discussion

- a) Reviewing the target user group and project objectives.
- b) Benchmarking the product against potential models: Studiosity or Gradescope-like platform.
- c) Propose technical specifications (language, framework, and database) and solicit feedback.

3 Project Key Deliverables

Functional requirements shall be discussed for the Application.

- a) Essential functionalities for instructor, educator, and student:
 - Create authentication page for user (identity entry).
 - Create different interfaces for instructor, educator, and student.
 - Student interface:
 - ✓ Create code example submission page.
 - ✓ Code collection state: triggers for the state transitions (submitted -> ranked -> validated).
 - ✓ The desired format of code example results.
 - Instructor & educator interface:
 - ✓ Create code example submission section.
 - ✓ Create code ranking section: rating mechanism and agreement reached criteria.
 - ✓ Code defects classification: standards for code defect and severity classification.
 - ✓ Discussion dialog: mechanisms for discussions.
 - ✓ Control the code state.
 - Database: code examples.
- b) Preferences for UI design style: color schemes, typography, and logo requirements.

4 Communication Mechanisms

Preferences for Regular Meetings: Scheduling and modality (prefer in-person).

Next Plan: Summary of requirements elicitation, planning for the prototype design and the first iteration milestone.
